January 24, 2012

Dear Chris & Tim,

I wanted to thank you and your crew for a job well done. Your guys were professional, courteous and treated our facility with the utmost of care which is hard given the scope of work needed. It was great to see we could help you guys out by taking in the material deliveries here and your company being able to complete this project before the onset of the impending winter weather which would have made it prohibitive to complete until spring time. This helped us out a lot with leak issues in the building. I was most impressed with the roofing system and your equipment setup to make it happen. It was quite clear that this is a very technical product to install and understand now why other roofing companies knock it simply because it is out of their skill level to install. It was a pleasure working with you and I will be most certainly referring customers to you.

A handwritten signature in blue ink that reads "Michael C. Lenherr".

Thank you,

Michael C. Lenherr  
President
