February 7, 2013

Remtek Services Inc.
204 Branchwood Court
Deptford, NJ 08096

Attention: Chris Nuhfer

Thank you Chris for cooperation and assistance in facilitating the roof replacement at Ardex Laboratories Inc. We appreciated you taking the time to explain your system and visiting installations in the Philadelphia area.

The spray applied polyurethane roofing system was a unique solution to our long overdue roof repair. Once we signed the deal your crew; started on time, worked efficiently and were well supervised.

In addition to saving Ardex Laboratories hundreds of thousand dollars versus a "tear off" we were thrilled to remove the "Tents" we had installed to collect the water that was leaking through our roof.

It was a pleasure to work with you and Remtek Services to install our spray applied polyurethane roofing system. Please feel free to use us a reference and demo site.

Best Regards;

A handwritten signature in blue ink that reads "Stephen E. Braun".
